

“PALESTINIAN STATE” WILL NOT BRING PEACE INSTEAD IT WILL BRING MORE TERROR TO ISRAEL AND THE US

- ❖ For many years, Israel has repeatedly attempted to resolve the Arab-Israeli conflict based on the formula of "land for peace" and "two-state solution".
- ❖ Israel recognized the PLO and pressed for the establishment of a Palestinian entity in Judea, Samaria and Gaza – but peace became even more remote. The territorial withdrawals carried out by Israel did not improve the situation. On the contrary, the threat of terrorism against Israel intensified dramatically. Thousands of Israelis have been murdered, tens of thousands injured, and life in Israel returned to normal only after the massive military operation, the construction of fences, and the return of the daily IDF raids in Palestinian territories.
- ❖ Palestinians have likewise received no benefits from the peace process. No refugee has been rehabilitated, the standard of living has dropped, and tens of thousands have fled from the Palestinian territories. The Palestine Authority has embezzled massive sums of money contributed by the international community as well as used them for terrorist activities against Israeli citizens.
- ❖ The Gaza "disengagement" of 2005 brought not peace but only a further deterioration in the situation. The pro-Iranian rejectionist Hamas gained control of Gaza and is openly striving for the destruction of Israel. Hamas fires daily Kassam rockets into Sderot and other Jewish villages in the Negev.
- ❖ If Palestinian State will be established in Judea and Samaria, it will undoubtedly turn into Hamastan as well, and 70% of Israeli citizens will find themselves within the range of the Hamas rockets.

With 70% of Israelis living within katyusha range from the Palestinian territories, the "Hamastan" is a road to disaster

“THE ISRAELI INITIATIVE” IS AN ALTERNATIVE TO THE “TWO-STATE SOLUTION”
